Games played/Modded/Tested (Alpha/Beta)

In all games mentioned in this list, that was played/tested/modded, I invested minimum 10 hours of my time, average around 60 hours per game. Games I can't remember, or i invested less than 10 hours, mentioned as "multiple more". For all games in this list, I have opinion of: quality/weak spots/game economics/monetization system/art & design decisions, bugs

Played – more than 10 hours, average 60, max 4000

Modded - I created mod for this game or found exploit in code or game design

Tested – I participated in alpha or beta tests of the game.

Bugs found – I didn't was on tests for this game but I found multiple bugs during gameplay

1. **Android games**
